

OSCAR MORGAN

BIOGRAPHICAL INFORMATION

Mr. Morgan is an experienced and internationally respected leader and administrator in the behavioral health field, with strong leadership and management skills. An innovator, analytical and strategic thinker with proven abilities to administer large complex systems, manage budgets, and develop quality driven outcome based programs. He is knowledgeable about health care financing and has a diversified background in operations, policy, legislative advocacy, and implementation of culturally and linguistically competent programs and services. Mr. Morgan is an excellent public speaker, frequently a guest on radio, television, and quoted by print media. He is also and an adapt facilitator who has provided training and consultation to international, national, state, and local audiences.

Currently, Mr. Morgan is the Project Director for Magna Systems, Inc., a multicultural, multilingual, veteran owned, business headquartered in Los Angeles California. Founded in 1996, Magna Systems provides innovative and cost-effective management solutions to a diverse set of clients in both the private and public sectors. Formerly, he was the Chief Operating Officer of Mental Health America, formerly the National Mental Health Association. He also has had a distinguished career with the State of Maryland's public mental health system. During his career he served in variety of positions including the executive director's position.

Mr. Morgan has a Bachelor's Degree in biology from the University of Colorado, Boulder Colorado and a Master's Degree in health care administration from George Washington University, Washington, DC. He is also a certified national Mental Health First Aid Instructor, currently one of three in the United States.
